

## SCHOOL MEAL PAYMENT POLICY

In order to assist with the efficient ordering and planning of school meals, we would please ask all parents to pay for meals in advance, on a weekly, monthly or termly basis.

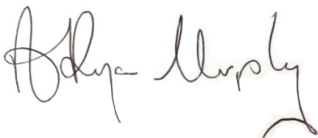

We have a minimum payment policy of £11.60 per week.

We no longer accept cash payments. Accepting bank transfer payments only. This will be available through your online payment facility.

If you do not have an online facility this will be transferred straight to the Nourish bank account. Parents will be provided with the necessary details should this be the case. We would also ask parents in this situation to reference their payment detailing child's surname and class.

Should the school require to keep cash payments for parents who are unable to pay by transfer for extenuating circumstances we would ask the school to collect this money and we would invoice the school for this.

We do expect lunches to be paid in advance. While there is a debt on a pupils account we respectfully ask that if you **do not** send them in for lunch until this has been cleared.
