

Britain at War

History

This project teaches children about the causes, events and consequences of the First and Second World Wars, the influence of new inventions on warfare, how life in Great Britain was affected and the legacy of the wars in the post-war period.

Maths

In our shape unit, we will be looking at angles in triangles and quadrilaterals. We will then go onto a unit focusing on position and direction. We will continue to practice our arithmetic skills in preparation for SATs.

Art

This project teaches children about the concepts of abstraction and distortion. They study the visual characteristics of abstraction and create a musically-inspired, abstract painting.

RE

Our **RE** topic for this term is 'What can be done to reduce racism, can religion help?'. This is a very exciting opportunity for the class to discuss debate topical issues. It will enable children to develop a greater understanding of the world they live in and to develop an idea of positive changes that need to be made.

Science

This project teaches children about the way that light behaves, travelling in straight lines from a source or reflector, into the eye. They explore how we see light and colours, and phenomena associated with light, including shadows, reflections and refraction.

English

In English, we will be using the text 'Private Peaceful' by Michael Morpurgo to inspire our own creative writing. We will also write non-chronological reports which clearly explain the causes for World War One. In addition to this, we will use persuasive techniques to re-create the adverts that were used to encourage people to sign up to the war effort. Later in the term, we will analyse some war poetry before having a go at writing our own.

PE

In PE this term we will be doing orienteering, cricket and American football.

Music

In music we will be learning about different forms of Indian music including Bollywood, Classical and Bhangra.

French

In French, we will be learning how to talk about ourselves in the 'Pleased to meet you' unit.

ICT

In ICT children will be looking programming.
